Seaside Community Performing Arts Center

Bowdoin College Studzinski Recital Hall Brunswick, ME

This project involved the innovative reuse of McKim, Mead and White's historic Curtis Swimming Pool Building by inserting of a new 285-seat Recital Hall, with world class acoustics into the volume of the former pool. The Hall is a warm, intimate space that celebrates community among audience and performers. The hall's design accommodates a range of musical programs including classical music, jazz, world and electronic music, and multimedia screenings. (19,000 g.s.f.; 285 seats).
