Wheelock College  
Campus Center and Student Residences  
Boston, MA

This project is the first major new building for Wheelock College in 40 years. Located along the Riverway, the project provides 108 new student beds, a 250-seat dining facility for the entire campus, and campus center activities such as a lounge, cafe, campus store, multi-purpose room, conference room, mail room and associated offices. These public amenities are grouped on the ground floor, with dining on the second floor and the student residences above. (60,000 s.f.; 108 beds)
