

WIELAND AND KING RESIDENCE HALLS

Amherst College

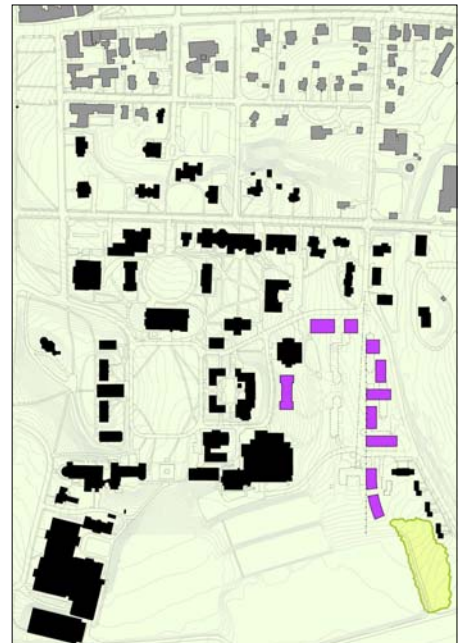

William Rawn Associates, Architects, Inc., Boston, MA.

Wieland Residence Hall and King Residence Hall | Amherst College

New Residence Halls

Master Plan: New East Quad

Interior Lounge

Two New Residence Halls at Amherst College are the first buildings of our firm's master plan for a new East Campus residential Quad. These buildings, housing 115 students, frame a major opening between existing residential buildings and the College's athletic fields:

- Strong, simple forms recall the elemental character of typical Amherst buildings
- A shallow curve gives the buildings' edge a dynamic quality and opens the East Campus Quad to the greater landscape
- Carved into the base of each building, large ground floor lounges organize the life of each building around stone hearths and continuous views to campus.

AWARDS

2005 Design Award, New England AIA
 2005 Award for Design, Boston Society of Architects
